|                                | • DBMS              | • OOPS Concept     |

## PROJECTS

---

**Zore App – Zomato + Reels feature** 🔗 | MERN, Node.js, React.js

**2025**

- Food delivery app with restaurant discovery, real-time order tracking, and short-form video reels.
- Users can browse restaurants, watch reels, like/comment, follow restaurants, and place orders.
- Owners manage menus, upload reels, view orders, and track ratings.
- 87+ REST API endpoints covering users, restaurants, products, reels, comments, likes, search, feed, and admin operations.
- Implemented secure JWT-based authentication and role-based access for users, owners, and admins.

**Twitter Clone** 🔗 | MERN - VS Code

**2025**

- Developed a full-featured Twitter clone with authentication, tweets, likes, retweets, and follow system using MERN stack.
- Built a responsive UI in React.js with efficient global state management.
- Designed RESTful APIs in Express.js & Node.js, storing relational data in MongoDB.
- Integrated secure JWT-based authentication and authorization, ensuring data privacy and protected API access.

**ShortQR App** 🔗 | MERN, Flutter

**2024**

- Built a URL shortener & QR code generator with authentication (JWT) and analytics tracking (clicks, device, geo-location).
- Delivered cross-platform support with a Flutter Android app and React web app.
- Designed and deployed secure backend with Node.js, Express.js, and MongoDB.
- Handled backend operations using Node.js and Express.js, with MongoDB for storing shortened URLs, QR codes, and analytics data (clicks, geo-location, devices).

## HOBBIES AND CERTIFICATIONS

---

- Webathon Gen NXT Techies
- Instagram clone - devTown
- Passionate about writing Hindi poetry, Ghazals, and Shayari
- Enjoy reading Indian literature and classic poetry
